What problem are you solving ?

Tribal students face difficulty in discovering suitable scholarships, understanding **eligibility criteria, completing applications**, and tracking their application status across **multiple platforms**.

Who faces this problem ?

Tribal students, particularly those from **rural, remote, and underserved areas**, who often have limited access to **reliable scholarship information** and digital support.

Why is it so important?

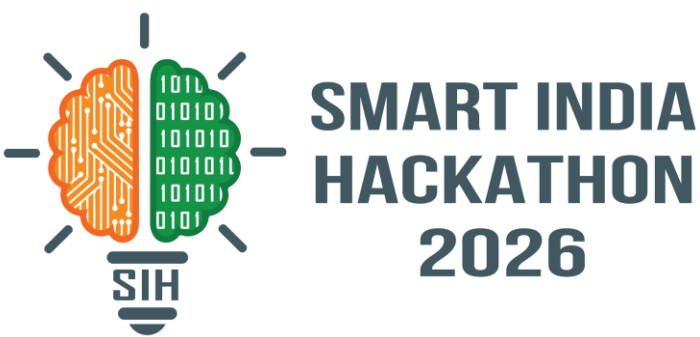

Lack of awareness, complex **eligibility requirements, repeated paperwork**, and **scattered information** can cause eligible students to **miss valuable financial support** for their education.

Our Solution

Tribal Scholar is a unified, student-friendly platform that brings **scholarship discovery, eligibility checking, application guidance**, and **application tracking together in one place**
